

Monday 20th April

Starter: Underline the relative clause

Erik the Viking, who was the leader of the Viking village, ran into battle like a tiger running towards its prey.

The long dirty sword, that was used to slay the giant cat, was cleaned until it was shining like the North Star.

IALT: use similes to describe

Remember our work on similes? What is a simile?

Watch the Video of the Camel and the Pyramid. Makes notes during of what happens when you watch it.

[https://www.literacyshed.com/uploads/1/2/5/7/12572836/the_egyptian_pyramids_funny_animated_short_film_\(full_hd\)_957.mp4](https://www.literacyshed.com/uploads/1/2/5/7/12572836/the_egyptian_pyramids_funny_animated_short_film_(full_hd)_957.mp4)

Watch online YouTube Video of Miss Parry explaining the lesson and the task.

<https://www.youtube.com/watch?v=UWf7e6AeujU>

Task: write sentences that describe what the camel saw using similes.

HOT TASK: Write sentences that describe what the camel saw using similes AND include relative clauses.

Extension: Brain Bubble – What are the 4 relative pronouns?

Monday 20th April

Starter: Daily 10

IALT: find unit fractions of quantities.

This is a practical lesson - you will need something you can share out. Miss Frain used pasta, you could cut up pieces of paper or use beads etc.

Today we are going to be finding fractions of quantities. We will begin by looking at unit fractions.

A unit fraction has a numerator of 1 - so we are looking at one part of the whole.

Miss Frain will teach you every stage of this lesson through the youtube video.

Follow the link: <https://www.youtube.com/watch?v=K6OQDnRFogs>

Mild	Mild Extension	Spicy
$\frac{1}{3}$ of 18		$\frac{1}{5}$ of 45
$\frac{1}{5}$ of 10		$\frac{1}{7}$ of 35
$\frac{1}{4}$ of 16		$\frac{1}{3}$ of 27
$\frac{1}{2}$ of 6		$\frac{1}{10}$ of 100
$\frac{1}{7}$ of 21		$\frac{1}{8}$ of 64

Hot

Explain how to find the unit fraction of a number.

You can fill in the gaps to support you:

To find the unit fraction of a number, you first need to look at the d_____ because this tells you how many p_____ you need to divide the w_____ into.

Make sure you share the whole out e_____.

Once you have shared it out, you need to look at how many are in o_____ group because the n_____ is one and we are working with u_____ fractions today.

Monday 20th April

Read p 154-159 *The Land where the Sun goes at Night* (first part)

Answer these questions in full sentences:

1. Why do the men look around 'in wonder'? p154
2. P155 What is special about the corn growing?
3. Who did Erik learn about this place from?
4. P156 What metaphor does Thorkhild use to describe how useless their weapons will be? REMINDER: A metaphor says something IS something else...
5. P156 How did Thorkhild and Sven defeat the monster?
6. The men thought they were climbing a mountain, but what were they really climbing?

TASK: Use the description on p156 to draw a picture of the terrible creature that the men defeat. Write the words and phrases that describe it around the edge.

Guided Reading

Monday is our PE day!

<https://www.youtube.com/watch?v=lc1Ag9m7XQo>

Complete the HIIT (High Intensity Interval Training) to get your heart rate up!
